

As a resident of Arcadia, Ca. KLOVE Radio has really served me well. I'm a listener of the sister station Air1 90.1 and it's a huge blessing to listen to such morally sound music. This music is a big part of my life and to have this this station replaced with something other would be sad not only to myself but to thousands of others who listen to this station daily.

The service provided by KLOVE and it's sister stations AIR1 is in great public interest because of the many lives they have impacted. The music is very encouraging and must stay on across both networks. Please do not make changes to the networks.

Thanks very much.

Jason Sacco
